# 5 REASONS FOR JOINING EUROSHORE

- ▶ promotes port reception facilities of members at national and international events
- ▶ assists members in getting new business and better servicing their clients adding assurance and credibility (certifications, quality standards, ethical standards)
- ▶ informs members on ship waste new technologies, cases, best practices through newsletter and website
- ▶ organizes workshops, provides networking opportunities and participates in national and international dialogue on waste
- ▶ promotes relevant international policy, procedures, and standards on ships waste management

## WHAT PEOPLE SAY ABOUT EUROSHORE

"The meetings of Euroshore are very interesting for the exchange of ideas and technologies. Particularly these assemblies followed by visiting the installations of one of the members are quite enriching."

Oyenike Shobowale, regional manager African Circle Pollution Management Ltd, Nigeria

"Euroshore-meetings are ideal networking occasions. At some of these, I was able to do business with other members."

Wim Hulshof, ex-commercial director ATM Moerdijk, the Netherlands

"Some time ago, I lost a shipping line that was a regular client of my port reception facility for the discharge of oily waste in Gibraltar. Why? The Italian Coast Guard in the previous port in Italy obliged the vessel to discharge its waste in Italy, because my port reception facility was not listed in the IMO-database. A call to the Euroshore-secretariat solved my problem: 48 hours later, my company was on the official IMO-list."

Darren Laguea, ex-COO Nature Group Gibraltar

## MORE INFO?

EUROSHORE INTERNATIONAL VZW

Euroshore as an international association of port reception facility providers in Europe and beyond provides environmental services to the shipping industry.
